Berkshire hogs exhibited at Louisiana Fair, Shreveport, Louisiana, 1914. The two large hogs owned by Clarence Leonard, member of pig club of Oberlin, Louisiana. They were fed in the same pen from the same trough. They are both from the same sire, but one is from a purebred Berkshire sow and the other from a typical razor back sow. Their is a difference of three days in their ages, in favor of the grade. The Berkshire weighs 305 pounds, the grade 205 pounds, and the smaller grades 49 pounds each. The two small ones were allowed to run loose with a neighboring farmer's bunch of pigs. It shows Not only the value of proper care and attention, but also the value of good blood in stock.
